THANK YOU

Spring Quarter
 April 1, 2017 - June 30, 2017

Compiling quarterly data allows us to collectively track progress and identify resources the system needs to better serve young people. This data effort began January 2016 with collaboration from the King County Reengagement Provider Network. The goal is to understand regional capacity and student outcomes across programs as they reconnect our region's disconnected young people to education and support their progress toward secondary and postsecondary credentials and career attainment. This data is a starting point for ongoing conversations around progress and action. In this report you'll find overall outcomes across participating programs.

Please contact Hanne Makhani if you have any questions, concerns or ideas for this report: Hannelore.makhani@kingcounty.gov.

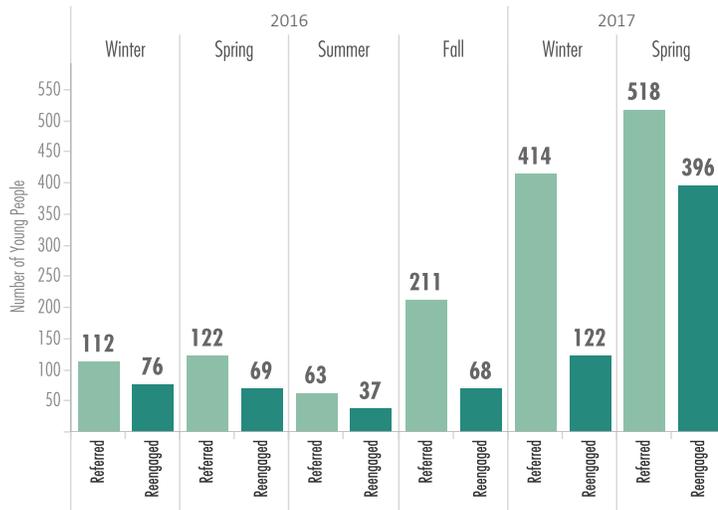

OUTREACH HIGHLIGHTS

King County Reconnect to Opportunity (ReOpp) helps young people reengage in a best-fit education program or employment. During the 2017 Spring quarter, 76% of referred youth reengaged! As shown in the figures below, this quarter ReOpp worked with 518 youth and 396 of referred youth were formally enrolled in a King County reengagement program or employment.

To date, 53% of students referred to ReOpp have been reengaged! That is 768 young people of the 1,440 total referred.

Spring 2017 Demographics and Reengagement Outcomes

What do we know about the 518 youth referred to ReOpp during this quarter and what percent reengaged by race and gender?

KEY

- Referred** Went through the intake process
- Linked** Went through intake and actively considering a program
- Reengaged** Confirmed enrollment in a program

	Referred	Number Linked	Reengaged	% Reengaged	
Current Quarter Total	518	500	396	76%	<div style="width: 76%;"></div> 76%
Multiracial	66	65	56	85%	<div style="width: 85%;"></div> 85%

Open Doors Quarterly Rates of Student Billability (1 or More Months)

For students to be billable under Open Doors they must meet a combination of requirements: meeting minimum monthly attendance; having weekly program contact; and making academic progress.

QUARTERLY DEMOGRAPHICS

Most students served in participating King County programs are students-of-color and many are low-income. These overall student demographics vary little quarter-to-quarter. Below are demographics and barriers among students enrolled in the current quarter. Keep in mind that totals vary based on data completeness across programs.

Item	Total	Number	Percent
Total Students Served	2,484	2,484	100%
White	2,486	835	34%
Hispanic/Latino	2,486	551	22%
Black/African American	2,486	435	17%
Multiracial	2,486	226	9%
Unknown Race	2,486	170	7%
Asian	2,486	159	6%
American Indian	2,486	60	2%
Pacific Islander	2,486	55	2%
Students-of-Color	2,321	1,486	64%
Male	2,486	1,288	52%
Female	2,486	1,171	47%
Unknown Gender	2,486	21	1%
Transgender	2,486	7	0%
Low Income	2,269	1,183	52%
Homeless or Housing Unstable	2,138	206	10%
Special Education	2,293	219	10%
JJ-involved	1,785	161	9%
English Language Learners	2,237	139	6%
Pregnant or Parenting	2,314	138	6%
Foster System Involved	2,021	52	3%

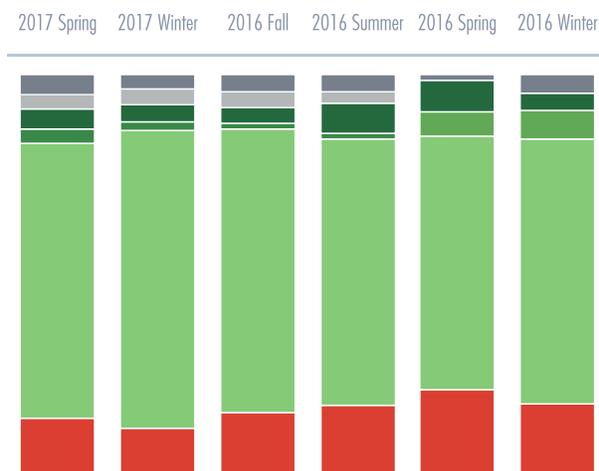

Note. King County totals vary based on data completeness across programs.

END OF QUARTER STATUS

The following measures present a snapshot of student success quarter-to-quarter and can help answer questions like: at the end of each quarter what proportion of students were still enrolled? How many earned a credential? And of all students served in a given quarter, how many transferred to another education program and how many exited without a credential? The Quarterly Stick Rate, at the bottom of this section, shows the percentage of youth in this quarter that persisted across the quarter or exited with a credential.

2017 Spring Quarter	Total	Number	Percent
Total Students Served	2,484	2,484	100%
Transferred to other program	2,484	123	5%
Earned credential prior quarter	2,484	89	4%
Exited with credential	2,484	122	5%
Earned credential this quarter	2,484	89	4%
Still enrolled without credential	2,484	1,694	68%
Exited without credential	2,484	369	15%

Exit Status Distribution For All Quarters

QUARTERLY STICK RATE

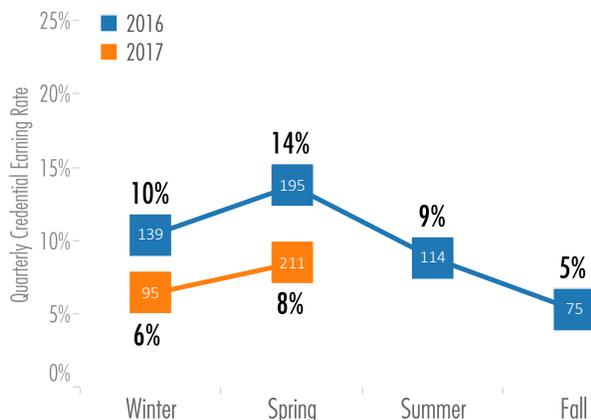

In 2017 Spring there were 1,905 students with a positive status (groups in green). To calculate the Stick Rate, divide 1,905 by the total students served 2,274, excluding students who transferred and students who earned credential before the 2017 Spring quarter (groups in grey). $1,905 / 2,274 = 84\%$

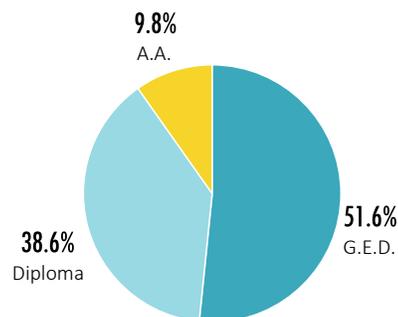

Note. Only programs that completed this section can be included

QUARTERLY CREDENTIALS EARNED

As of the publication of this quarterly report, 829 students have earned a credential! Each quarter our region has between 100-200 students who have earned a credential –mostly GEDs and diplomas. These students, however, only make up 5-14% of all students enrolled.

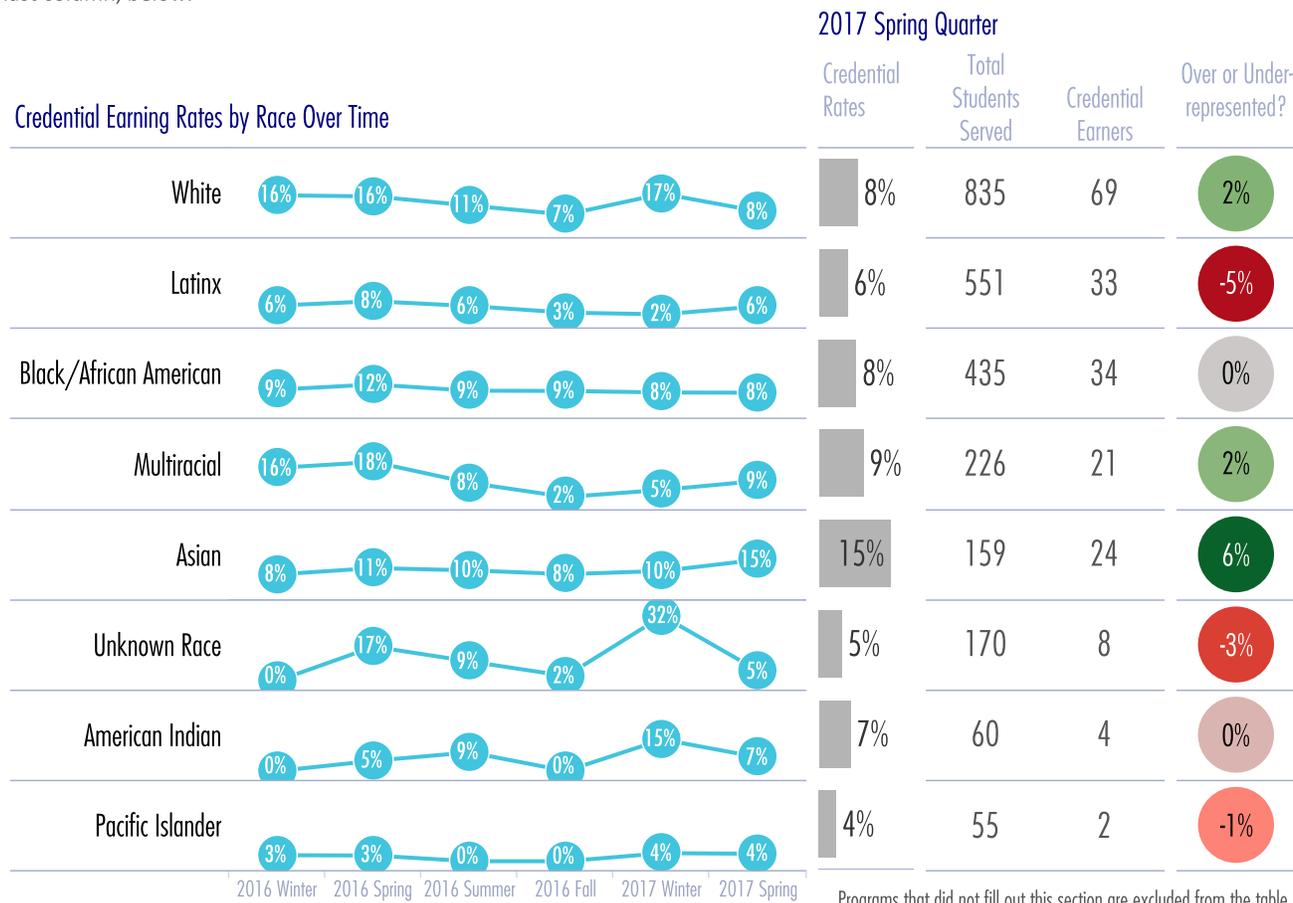

Among students who earned a credential in 2017 Spring, most earned a G.E.D.

Note. This measure was refined starting with the 2016 Summer Quarterly Data Request and only includes credentials earned in the current quarter.

CREDENTIAL EARNING BY RACE

Credential earning rates by race/ethnicity is one way to track how our region is serving youth and the extent to which we are closing gaps. For instance, Hispanic/Latino students are the 2nd largest racial demographic served by our region's programs, yet students often have the lowest rates of credential earning. Below, we see of the 551 total Latinx students enrolled in all King County Programs in the 2017 Spring quarter, only 6% earned a credential - only 33 students. Also, while the 551 Latinx students are a large population of youth served, students are a small portion of the population of credential earners. The extent to which a racial group is over or underrepresented in credential earning is shown in the last column, below.

POSTSECONDARY HIGHLIGHTS

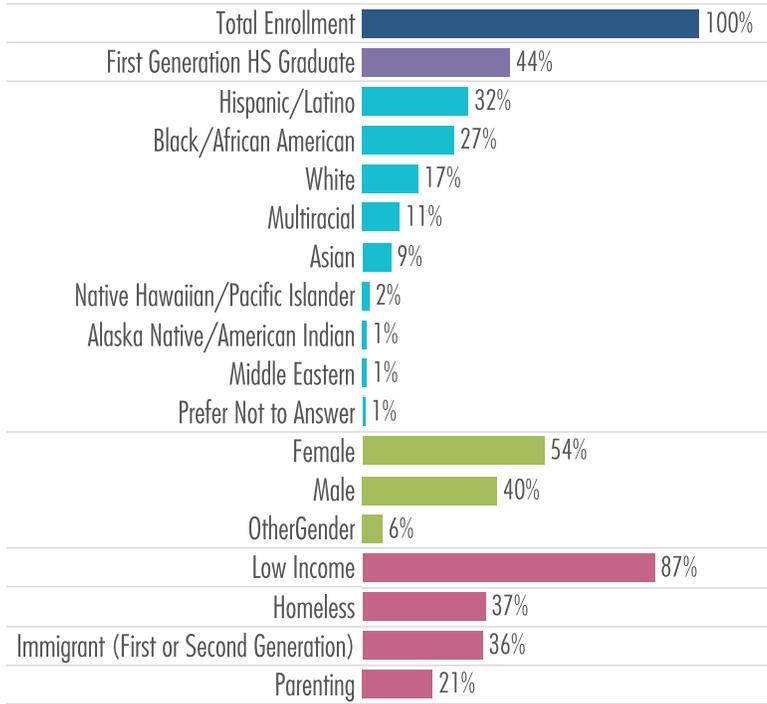

Seattle Education Access (SEA) partners with many Open Doors programs in King County to provide college and career planning and transition support to youth as they near completion of their secondary credential. The data below captures work they have been doing July 1, 2015 - June 30, 2017 with Open Doors partners in the Road Map Project region and with support from a federal Social Innovation Fund grant. Below are the demographics for the 257 students enrolled under this grant.

Of note, over half of SEA students are first generation high school graduates. During this period, of the 210 SEA High School Graduates 44% (or 92 students) were the first in their family to have graduated high school.

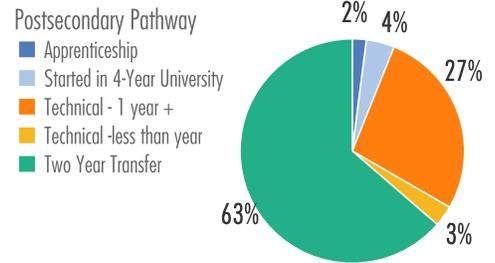

seattleeducationaccess

SEA Demographics

Of the 257 Open Doors students receiving navigation support from SEA under this grant, 97 have since enrolled in a postsecondary pathway.

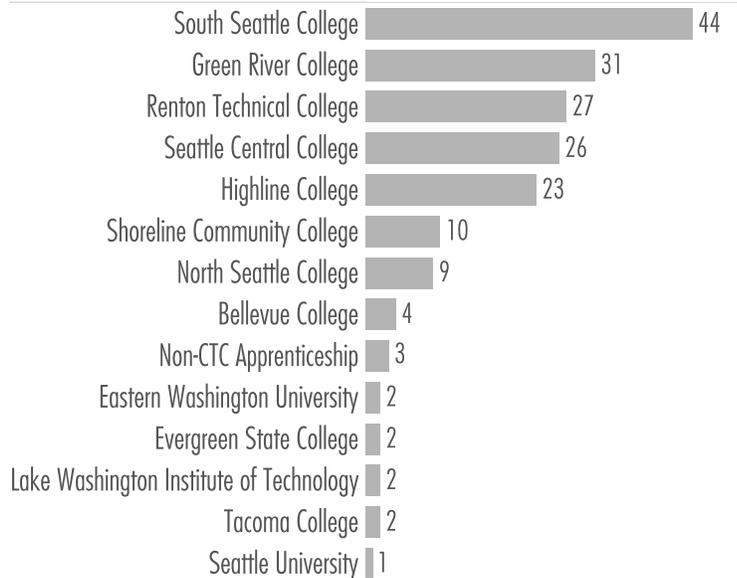

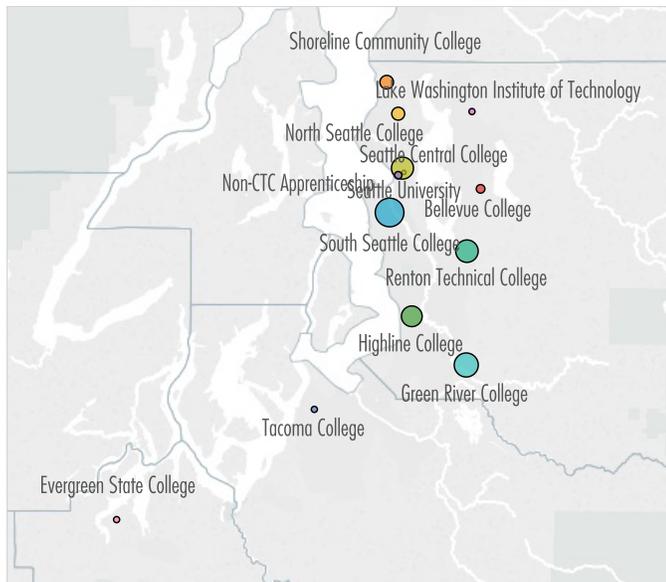

Outcomes of the 97 Students Enrolled in Postsecondary

76% Postsecondary Persistence

Of the 37 students who enrolled in postsecondary in 2015, 76% (or 28 students) have since enrolled in a second year of college!

ENROLLMENTS

Note. All data included above focus on SEA students who reengaged with secondary education in the following programs:

- YouthSource (Including HS 21+)
- Career Link
- iGrad -GRC
- Youthcare
- iGrad -KSD
- Southwest Education Center
- Federal Way Open Doors
- Green River College
- Other
- Highline College Sites
