

KING COUNTY REENGAGEMENT NETWORK QUARTERLY REPORT

Summer Quarter

July 1, 2021 - September 30, 2021

Programs that submitted data for the current quarter above are indicated by a circle. Open Doors programs are identified with a blue circle (●) and Employment focused programs are identified with a black circle (●) next to the program's name.

THANK YOU

Compiling data quarterly allows the King County Reengagement Provider Network to collectively track progress, focus on improvement and identify resources the system needs to better serve young people. This data effort began January 2016 with collaboration from the Provider Network. The goal is to understand regional capacity and student outcomes across programs as they reconnect the region's disconnected opportunity youth to education and support their progress toward secondary and postsecondary credentials and career attainment. This data is a starting point for ongoing conversations around progress and action. In this report you'll find overall outcomes across participating programs.

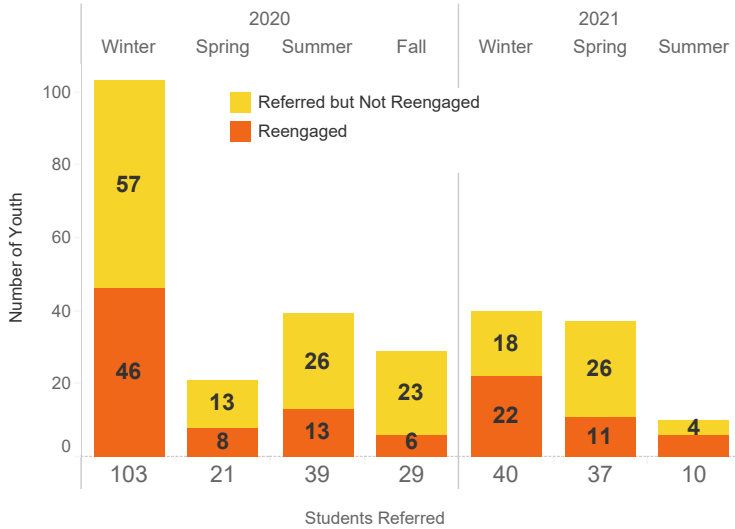

Please contact Maria Guizar (Maria.Guizar@kingcounty.gov), Max Meshnick (mmeshnick@ccedresults.org), or Danika Martinez (dmartinez@ccedresults.org) if you have any questions, concerns or ideas for this report.

OUTREACH HIGHLIGHTS

King County Reconnect to Opportunity (ReOpp) helps young people reengage in a best-fit education program or employment. During the 2021 Summer quarter, 60% of youth that ReOpp worked with reengaged! As shown in the figures below, this quarter ReOpp worked with 10 youth and 6 of referred youth were formally enrolled in a King County reengagement program or employment.

1,393 young people have been reengaged since January 2016! That is 49% of ReOpp's 2,825 total intakes.

QUARTERLY DEMOGRAPHICS

Most students served in participating King County reengagement programs are students-of-color and many are low-income. These overall student demographics vary little quarter-to-quarter. Below are demographics and barriers among students enrolled in the current quarter. Keep in mind that totals vary based on data completeness across programs.

END OF QUARTER STATUS

The following measures present a snapshot of student success quarter-to-quarter and can help answer questions like: at the end of each quarter what proportion of students were still enrolled? How many earned a credential? And of all students served in a given quarter, how many transferred to another education program and how many exited without a credential? Quarterly Stick Rate shows the percentage of youth that remained enrolled during the quarter or exited with a credential.

2021 Summer Quarter	% of students	# of students
Total Students Served	100%	536
Transferred to other program	2%	10
Earned credential prior quarter	10%	55
Exited with credential	4%	20
Earned credential this quarter	1%	8
Still enrolled without credential	71%	382
Exited without credential	11%	61

EXIT STATUS DISTRIBUTION | By Quarter

QUARTERLY STICK RATE

In 2021 Summer there were 410 students with a positive status (groups in green). To calculate the Stick Rate, divide 410 by the total students served 471, excluding students who transferred and students who earned credential before the 2021 Summer quarter (groups in grey). $410 / 471 = 87\%$

EMPLOYMENT

NUMBER OF STUDENTS WHO STARTED A PAID INTERNSHIP OR GAINED EMPLOYMENT

CREDENTIALS EARNED

As of the publication of this quarterly report, **3,407** students earned a credential! Typically, each quarter between 70-225 students earn a credential –mostly GEDs and diplomas. Credential earners make up 5-17% of all students enrolled in a given quarter.

QUARTERLY CREDENTIAL EARNING RATE | By Quarter

TYPE OF CREDENTIALS EARNED | 2021 Summer

Note. This measure was refined starting with the 2016 Summer Quarterly Data Request and only includes credentials earned in the current quarter.

Note. Totals may not add up to 100% due to rounding.

CREDENTIAL EARNING BY RACE

Rates of credential earning and disproportionality by race and ethnicity are two ways to track where our network is closing gaps. There were 142 Latinx students enrolled in all King County reengagement programs in the 2021 Summer quarter, yet only 2 Latinx students earned a credential --a 1% credential earning rate. While the 142 Latinx students are a large group of youth served, these 2 Latinx credential earners are a small portion of all the credential earners this quarter. The extent to which a racial group is over or underrepresented in credential earning is shown in the last column, below.

	2020				2021			2021 Summer Quarter Disproportionality		
	Winter	Spring	Summer	Fall	Winter	Spring	Summer	Credential Earners	Total Students Served	Over or Under-represented?
American Indian/Alaskan Native	5%	8%	0%	0%	5%	5%	0%	0	10	-2%
Asian	4%	6%	3%	4%	4%	17%	9%	4	44	6%
Black/African American	4%	0%	1%	6%	5%	10%	7%	6	85	6%
Latinx	5%	7%	2%	3%	4%	9%	1%	2	142	-19%
Multiracial	6%	4%	0%	0%	8%	8%	6%	3	50	1%

STUDENT SUPPORTS

Instead of only tracking student performance, the region also tracks system characteristics and the conditions that impact young people. Below are supports available in the King County Reengagement Network among programs participating in this data collection effort.

Programs that did not fill out these sections are excluded from the table.

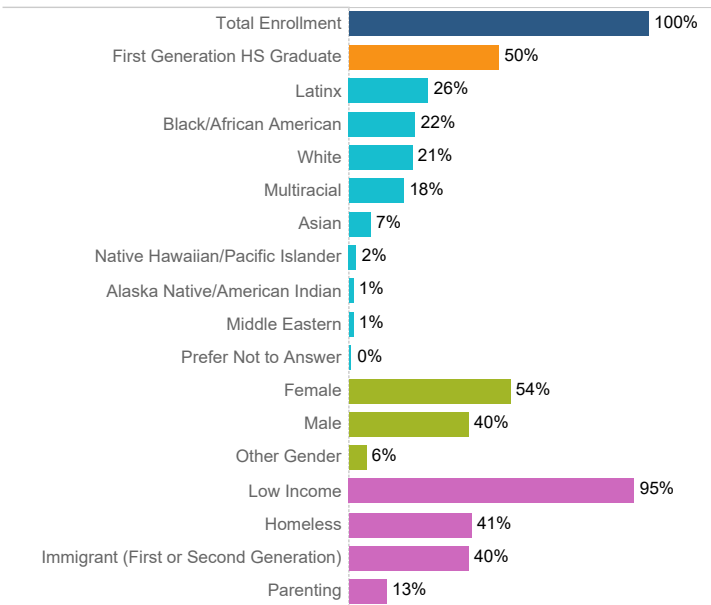

POSTSECONDARY HIGHLIGHTS

Northwest Education Access (NWEA) partners with many Open Doors reengagement programs in King County to provide college and career planning and transition support to youth as they near completion of their secondary credential. The data below captures NWEA student outcomes beginning July 2015 for opportunity youth in King County. Below are the demographics for the 1,155 students working with NWEA.

During this period, of the 706 students enrolled in postsecondary 50% (or 354 students) were also the first in their family to have graduated high school!

Of the 1,155 opportunity youth receiving navigation support from NWEA, 706 have since enrolled in a postsecondary pathway.
